

The Endless Darkness

Becky Brown didn't know what would happen when her family moved from the countryside to Silenttown.

Their house was old, but the garden shone in its beauty. She enjoyed playing in it.

When winter came, the beauty disappeared from the garden. At night, Becky heard miserable voices.

She tried to ignore it but the well didn't surrender.

She became the well and the well became her soul.

When New Year's Day came along, her sanity was long gone. Without thinking any more, she stepped into the endless darkness.
